

Segment: Post-Retirement High Coverage

Business segment description for life insurance policy cohorts. Use this document to infer assignment logic and produce explainable segment labels.

- Policyholders over retirement age who still carry high coverage or meaningful cash value.
- The business concern is whether premium burden, loan balance, or unclear policy purpose could create lapse or surrender risk.
- High confidence signals include age 65+, face amount above 500,000 or cash value above 50,000, and non-term products.

Signal	Description
Age	65+
Coverage/Cash value	Face amount >= 500k or cash value >= 50k
Product	Whole, universal, or indexed universal life
Suggested label	post_retirement_high_coverage
